

EARLY LEARNING ACTIVITIES

There are some great websites, which we have listed below, where you will find heaps of ideas to help celebrate Purple Day with the children. We have included a few of the ideas in this pack but try to log on and scroll through yourself as you will be inspired !

PURPLE PASTA NECKLACES

Materials Required

- Penne pasta noodles or whatever type will thread easily
- Red and blue food colouring
- String

Pour about 5 drops of red food dye and 5 drops of blue food dye into half a cup of water in a container such as a plastic take away tub.

Then place one cup of pasta into the dyed water. After only a few minutes remove the pasta and place it onto absorbent paper to allow it to dry.

Ensure the pasta does not become too wet when placed into the water as it will be difficult to use later if this happens. Once on the paper place the pasta in a warm spot and leave it to dry completely.

When pasta is fully dry it is ready to thread onto pieces of string.

Extension:

Once the pasta has dried and children have threaded it onto string, you may wish to spread the pasta lightly with glue and roll it in purple glitter to make the new jewellery even more impressive.
